

- Short Question (All Units)
- Architecture of WMAN / WLAN
- Block diagram of wireless communication
- WiMAX and WLAN Applications
- LMDS, MMDS, wireless local loop (WLL)
- You have to define each and every term in detail with diagram.
- WSN challenges
 - ↳ characteristic requirements
 - ↳ Required Mechanism
- WSN Types
- DCF and PCF (MAC)
- ↳ for 5 marks
- MAC designing Challenges in WSN

→ SMAC

→ TMAC

→ Issues in Designing the Wireless sensor network routing protocols

→ Routing protocols (Unit-5)

Whole Unit is important

- SPIN
- LEACH
- TEEN

→ Routing Protocol Methods

→ Flooding

→ Gossiping

→ Ideal Broadcasting

→ Unit 6 (6 marks)

1 mark 1 que
5 mark 1 que

- Uptill Sandip Sir has explained.

- In Smaraks Question Cover all the content written in notes.
