

- 3) The possible cause of theargy or Unconsciousness are —  
 (A) Cerebral malaria (B) Meningitis  
 (C) Severe dehydration (D) All of these
- 4) In causes of measles rash are  
 (A) Meningitis (B) Sepsis  
 (C) Dehydration (D) None
- 5) In possible causes of very sick young infant are —  
 (A) Sepsis (B) Dehydration  
 (C) Both A & B (D) None of these
- 6) Malaria is spread due to ?  
 (A) Flies (B) Male Mosquitoes (C) Female Mosquitoes  
 (D) Both B & C
- 7) Malaria is caused by ?  
 (A) Parasite (B) Fungi (C) Flies (D) Both A & C
- 8) It is difficult to control malaria because they have become resistant to —  
 (A) Algae (B) Insecticides (C) Pesticides  
 (D) None
- 9) What is the alternative solution to reduce malaria?  
 (A) Insecticides (B) Pesticides (C) Drug therapies  
 (D) All of these

- 10) Death from malaria can be reduced by —  
(A) Parents to seek prompt care  
(B) Use mosquito-proof bed nets  
(C) Prompt treatment  
(D) All of these
- 11) — children are more vulnerable to disease  
(A) Low immunized (C) Infected  
(B) Malnourished (D) None of the above
- 12) Children between — months and — years of age are at increased risk of malnutrition  
(A) 2, 4 (B) 6, 2 (C) 3, 2 (D) 2, 6
- 13) Proper — during first six months to babies can reduce the risk diseases  
(A) Breastfeed  
(B) Water intake  
(C) Food intake  
(D) All of these
- 14) A minor increase in breastfeed could prevent up to — of all deaths of children under five.  
(A) 50% (B) 60% (C) 5% (D) 10%
- 15) Women of — income group families, work longer than men  
(A) Lower (B) Higher (C) Both A & B (D) None

- 16) Spending long hours indoor in slums, can cause \_\_\_\_\_  
 (A) Malnutrition  
 (B) Respiratory disease  
 (C) Headaches  
 (D) None
- 17) Malnutrition and \_\_\_\_\_ are caused to inadequate nutrition  
 (A) anemia (B) diarrhea (C) malaria (D) fever
- 18) What is the intensity of the gastro/ \_\_\_\_\_  
 (A) Polluted water  
 (B) Polluted air  
 (C) Polluted food  
 (D) A & B both
- 19) Which is the organ system inside human animal?  
 (A) gastro intestinal condition  
 (B) malaria  
 (C) measles  
 (D) Respiratory condition
- 20) What caused Gastro's disease?  
 (A) Viruses (B) Bacteria (C) Parasites (D) All of these
- 21) \_\_\_\_\_ affects the organ & tissues that make gas exchange possible in higher organism  
 (A) Respiratory Disease (B) Pneumonia  
 (C) Malnutrition (D) All of these
